Sela.

Full Stack in Python - From Zero to Hero

FSiPZTH - Version: 1

 2 days Course

Description:

Nowadays multiple teams and developers are working on the frontend alone. Quite often, this leads to communication and alignment issues together with longer times to market. The workshop covers the whole life cycle of FullStack development.

Intended audience:

Prerequisites:

prerequisites: Some experience with programming in any language

Objectives:

In this workshop the participants will gain hands-on experience at a variety of Full Stack solutions from zero to hero.

Topics:

Sela.

◦ Day 1 - Front End

◦ What is full stack programming?

◦ What is the Web?
