- The New Cloud Reality for IT
- FinOps: Changing the Model
- Adopting FinOps

FinOps Principles and Concepts

- The FinOps Framework
- Important Concepts
- FinOps Practices

FinOps Stakeholders

- Personas
- Teams

The Six Domains of FinOps Capabilities

- Domains Overview
- Understanding Cloud Usage and Cost
- Performance Tracking and Benchmarking
- Real-Time Decision Making
- Cloud Rate Optimization
- Cloud Usage Optimization
- Organizational Alignment
- Tools

- Activity

Practicing FinOps Capabilities

- Motivations and Common Language

Understanding a Cloud Bill

- Anatomy of a Cloud Bill

The FinOps Team

- Running the FinOps Team

Inform Phase

- Inform Phase Overview
- Reporting
- Data in the Path of the Engineer
- Anomaly Detection
- Benchmarking
- Cost Allocation
- Accounts, Taxonomy, and Tags
- Forecasting and Budgeting

Optimize Phase

- Optimize Phase Overview
- KPIs & Outcomes

Sela.

- Primary Ways to Optimize Usage
- Optimize Usage
- Optimize Rates

Operate Phase

- Optimize Phase Overview
- Aligning Teams
- Containers and Shared Environments
- FinOps and Other Methodologies

Successful FinOps Practice

- Maturing FinOps
- What's Next?
