The Management Race: Mastering Leadership Challenges and Dilemmas

MngRace - Version: 1

 1 days Course

Description:

Are you ready to transform your leadership skills and propel your career to new heights? This workshop is designed for ambitious professionals who aspire to excel in management and overcome complex organizational challenges.

Key Course Highlights: Develop advanced interpersonal and technical skills crucial for modern leadership; Learn to navigate the delicate balance between motivating teams, driving professional excellence, and maintaining business acumen; Master the art of handling complex management dilemmas with confidence and precision

Why This Course Is Essential? In today's dynamic business environment, what seems straightforward often reveals itself as intricate, demanding significant time and energy. Your perceived clarity may encounter resistance, while your assumptions of understanding might be met with ambiguity among your team.

This course will challenge your comfort zone, inspiring creative problem-solving and positive organizational change.

Intended audience:

Managers, Team Leads, influential people in the organization

Prerequisites:

Sela.

Objectives:

Topics:

▫ Systemic Thinking: Craft robust strategies and create transparency in uncertain environments

▫ Political Positioning: Build strategic partnerships across organizational boundaries

▫ Role Perception and Positioning: Empower teams while maintaining control; handle pressure and ambiguity with poise

▫ Culture of Adaptation: Implement effective metrics without compromising genuine productivity; redefine efficiency and quality standards

Sela.

◦ Analyzing and resolving common yet complex management challenges

◦ Exploring a spectrum of potential outcomes and developing adaptive response strategies

◦ Enhancing critical management competencies essential for organizational success
